

Household use:
Model 25 sec.

Specifications:

- Emission Time: 25 Seconds
- Length: 25.4 cm
- Diameter: 3.3 cm
- Weight: 230 grams

The FSS is efficient

The FSS fire extinguisher is a simple and easy way to ensure that you are prepared in the event of a fire in your home, your office or your vehicle. It weighs far less than a conventional fire extinguisher and can operate for longer. And best of all, there is NO residue left behind after use.

Professional use:
Model 50 sec.

Specifications:

- Emission Time: 50 Seconds
- Length: 25.9 cm
- Diameter: 3.3 cm
- Weight: 275 grams

The FSS is safe

Small and light weight, the FSS is environmentally friendly and can safely be stored for easy access in an emergency. The FSS fire extinguisher will help you to contain a fire, preventing it from becoming a threat to life or property.

Warning: Do not touch metal cylinder and after use due to risk of burn. Keep out of reach of children. Do not point aerosol jet at people. The product does not extinguish live coal. Do not disassemble.

Industrial use:
Model 100 sec.

Specifications:

- Emission Time: 100 Seconds
- Length: 32.8 cm
- Diameter: 3.3 cm
- Weight: 550 grams

The FSS is economical

No servicing, refilling, checks or maintenance. No danger from pressurized containers which can explode or malfunction. Store the FSS fire extinguisher in an easily accessible place. Point the nozzle at the base of the flames to smother the fire at its core.

Extinguishes Class A (solid combustible), Class B (liquid and gas combustible), Class C (electrical fires on equipment up to 100.000 V) flames and Class F (cooking oil & fats).
